WELCOME

Welcome to all the participants of Mood 2023. This initiative is an original contribution to promote our region. In fact, orienteering is not just a sport, but it is also a sustainable way to discover the place. We connect two areas, sports and tourism, but at least a third area must be added: the cultural one, because Mood 2023 crosses historical centers. Thus a sport event takes on the features of a broader experience, which leads us to live villages and towns in the Marche region in an unusual way. Through sport we let discover Marche and we extend the seasonal offer by discovering less frequented routes. With just one event we hit several goals, an excellent result!

Assessor for Sport and Culture of Marche Region

WELCOME

Dear orienteering friends, I am happy to welcome you once again to Ancona in the name of the entire municipal administration. For Ancona city, this event is a happy return after the good experience of the previous year. We wanted it, we believed in it and invested financial and human resources, engaged in the organization and above all in mapping all the city to realize events like this. The hospitality in recent years has been an important feature in our way of experiencing sport and for this we have worked hard to get ready for this meeting, because we think you will have the opportunity to rediscover, know and appreciate our city, its sea, its art, the monuments, the most beautiful landscapes, our food and wine traditions, our millennial history. Thanks to you for being here, thanks to the organizers, thanks to everyone who inside and outside the municipality worked to make the appointment with orienteering possible also this year.

We hope that you can spend a nice day of sport with us, and that you come back soon to visit us, trying your hand at the challenges that most suit you or simply to discover again our city, which you will be able to appreciate by racing along its streets, squares, ascents and descents that characterize this land so rich and full of pleasant surprises.

WELCOME

Dear friends,
truly with great joy we are ready to welcome you in our Municipality. Marche are a land full of charming villages, with a long history; each one is a casket, which holds unsuspected beauties and delicious foods. Not far from the coast, climbing inland among the tender hills of a unmistakable landscape, here is Ostra! Its network of alleys, overlooked by the bell tower, will be able to surprise you with suggestive and unexpected glimpses, protected by austere noble buildings or wide open on a horizon of soft fields expertly cultivated, which accompany the gaze to the sea or push it upwards, towards the mountains.

In Ostra you will love splendid churches, with their treasures of art and faith, its roots, which sink into a distant past more than two thousand years, its historic theatre, which tells of a love for culture that has never faded over time... You can fall in love with its flavors, ancient like tradition but also new, like the desire to look to tomorrow. You will fall in love with its sounds, which are country voices, but also music, lots of music, which characterizes our most important events.

And, therefore, Ostra awaits you! We are waiting to give you a warm "Welcome" with the hope that your maps, which bring you here, this time, to compete, can guide you again in our territory, to fully savor everything it can offer you.
